

MIND GAMES

Educational Enrichment Through Play™

Come join the fun at Mind Games!

Mind Games is an enrichment program that helps students improve academic achievement through S.T.E.M. based game play. Studies have shown that learning through play will expand cognitive abilities and assist in developing important life skills.

Mind Games is excited to bring our program to your camp! Our 50-minute interactive classes will introduce campers to **SCREEN-FREE** board games that will diversify your activities by keeping minds sharp and help to prevent the dreaded summer slide!

AREAS OF FOCUS

- Cognitive Processing Speed
- Focus & Attention
- Memory Speed
- Sportsmanship
- Teamwork
- Life Skills

S.T.E.M. EDUCATION (Science, Technology, Engineering, Math)

S.T.E.M. education is a great launching pad for curiosity, investigation, critical thinking, teamwork, and problem solving. Our inquiry-driven lessons create an environment that stimulates learning through questioning, exploring, and creating.
